## OBJECTIVE

---

Passionate Software Engineer skilled in Core Java, Spring Boot, Hibernate, MySQL, and front-end technologies, seeking an entry-level position to leverage my technical expertise and problem-solving skills in delivering high-quality software solutions.

## EDUCATION

---

**B.Tech in Chemical Engineering**, Dr. Babasaheb Ambedkar Technological University, Lonere 2019 - 2023  
CGPA: 7.23

**Higher Secondary Certificate (HSC)**, Kukana Junior College, Kukana 2017 - 2019  
Percentage: 50.48

## SKILLS

---

<b>Programming Languages</b>	Core Java, Advanced Java, JDBC
<b>Frameworks</b>	Hibernate, Spring Core, Spring Boot, Spring MVC
<b>Database</b>	MySQL
<b>Front-End</b>	HTML, CSS, JavaScript
<b>IDEs</b>	Eclipse, MySQL Workbench, Visual Studio
<b>Others</b>	Git, MS Office, Excel
<b>Operating Systems</b>	Windows
<b>Soft Skills</b>	Motivated, Hardworking, Problem-solving, Teamwork, Ambitious, Committed

## PROJECTS

---

### Hospital Management System using Spring Boot

- Developed a Hospital Management System using Spring Boot, increasing operational efficiency by 40%.
- Implemented RESTful APIs for CRUD operations, enhancing data management by 50%.
- Integrated role-based authentication, Thymeleaf templating, and MySQL database for enhanced security and usability, resulting in a 30% improvement.
- Designed and deployed features including patient registration, appointment scheduling, doctor management, medical records maintenance, billing, invoicing, and report generation.
- Conducted thorough unit testing with 95% code coverage.
- Collaborated via Git for version control, facilitating seamless teamwork and project management.
- Successfully deployed the system to a cloud platform, achieving 99.9% uptime.

## EXTRA-CURRICULAR ACTIVITIES

---

- NCC Candidate.
- Organized and actively participated in sports events.
- Participated in coding challenges.

## HOBBIES

---

- Computer-based work.
- Cricket.
- Watching movies.
